

Celerasys Corporation

Better information systems to help you bring products to the world!

Unlock your company's potential to save millions!

Allow Celerasys to optimize your supply chain management and logistics systems. Interface with customers and suppliers to get the information necessary to run your business right.

Improve Your Production Status

- Execute a “just-in-time” production schedule without headaches
- Increase visibility of all inventory within production stages
- Precise accountability - identify problem areas; who is succeeding...who is not

Cost Savings Leads To Increased Margins

- \$ Reduce unplanned costly transportation spending
- \$ Reduce customer chargebacks/penalties
- \$ Reduce factory overtime

Working with Celerasys

A customized plan and implementation strategy is developed to best meet your needs and specific issues. Every proposal includes a summary of your return on investment. Customized

1. Stage I - Needs assessment

- a. We work with your team to properly document problem areas
- b. Establish a joint project team to identify potential solutions
- c. Highlight solutions that provide the greatest ROI

2. Stage II - Execution

- a. Develop tailored solutions
- b. Interface complete solution set
- c. Beta testing

3. Stage III - Rollout and support

- a. Target site implementation
- b. Company-wide “Go-Live”
- c. Ongoing support

Further explore the full potential of your company.
